

Jefferson County - Seeking Vacant Land

The Jefferson County Highway Department is looking for suitable vacant land in the Southeastern area of the county to purchase for a material storage site. The preferred property would be approximately 10 to 20 acres in size with reasonably flat terrain and suitable roadway access. The ideal site would be centered within a two to three mile radius from the intersection of State Highway 106 and County Highway Cl. If you have property available and would be willing to discuss a potential land sale contact the Highway Commissioner (Bill Kern) at (920) 674-7392.
